

**Oral Biology Seminar Series / OCBM710 Discussion in Oral Biology**  
**Spring 2022 Schedule – Mondays 4 pm to 5 pm**  
**Session will be in-person Koury Bldg. Rm 5615 or zoom**

<b>Date</b>	<b>Speaker</b>	<b>Department-Institution</b>	<b>Presentation Title</b>	<b>Hosts</b>
<b>Jan 10</b>	Tomaz Alves da Silva Neto	OCBM - ASoD	<i>"Research in Progress: Data and Experiments Performed During My Rotations So Far"</i>	E. Everett T. Amelio
<b>January 17 – No seminar – University Holiday Martin Luther King Day</b>				
<b>Jan 31</b>	<b>Shannon Wallet, PhD</b>	Oral Craniofacial Health Sciences - <b>ASoD UNC</b>	<i>"Immunotherapeutics for Control of Periodontal Inflammation"</i>	
February		TBD		
<b>Mar 07</b>	<b>Marco Bottino, DDS, MSc, PhD, FADM</b>	Cariology, Restorative Sciences, Endodontics - <b>University of Michigan</b>	<i>"Bioengineering Approaches to Regenerate Dental, Oral, and Craniofacial Tissues"</i>	<b>B Gitter</b>
<b>March 21 – No seminar – Spring Break</b>				
Mar 28	<b>Christina Graves, PhD</b>	Oral Craniofacial Health Sciences - <b>ASoD UNC</b>	<i>"Zebrafish: an emerging model to study the effects of early life stress across the gum-gut axis"</i>	S. Wallet
<b>Apr 4</b>	<b>Scott Parnell, PhD.</b>	Assistant Professor Department of Cell Biology and Physiology. Bowles Center for Alcohol Studies	<i>"Pathogenic Mechanisms and Candidate Genes Associated with Prenatal Alcohol-Induced Craniofacial Dysmorphologies"</i>	<b>E. Everett</b>
<b>Apr 11</b>	<b>Matthew Ramsey, PhD</b>	Assist Professor of Dermatology Brigham and Women's Hospital <b>Harvard Medical School</b>	<i>"Dissecting mechanisms of transcriptional control driving Squamous Cell Carcinoma progression."</i>	<b>T. Amelio</b>
<b>Apr 25</b>	<b>Kaixin Liang</b>	OCBM / ASoD	<i>"Unraveling the SARS-CoV-2 induced cell death in epithelial cells"</i>	E. Everett T. Amelio
<b>May 2</b>	<b>Tariq Aziz Alsahafi</b>	OCBM / ASoD	<i>"In Vitro: Alternative imaging modalities for assessing the marginal integrity of indirect dental restorations, as influenced by scan accuracy and thermo-mechanical loading"</i>	E. Everett T. Amelio
<b>May 9</b>	<b>Ariadne Letra, DDS,MS, PhD.</b>	Professor, Interim Associate Dean Research UTHealth, <b>University of Texas</b>	<i>"Rethinking the etiology of nonsyndromic tooth agenesis"</i>	<b>A.Ribeiro</b>

These are Hybrid presentations. The in-person session will be in ASoD KOHS 5615.
