

Prerequisite Courses and Community College Equivalents

Required Course	UNC Course	Community College Course	Notes
English Composition and Rhetoric	ENG 105	ENG 111 AND ENG 112 OR ENG 111 AND ENG 113	Other NC 4-year colleges do not offer ENG 105. Be sure to check equivalencies.
Chemistry OR Biochemistry	CHEM 101 & 101L AND CHEM 102 & 102L BIOC 107 AND BIOC 108	CHEM 151 AND CHEM 152 CHEM 130 and 130A AND No Equivalent to BIOC 108	BIOC 108 is only offered at UNC each spring semester
Microbiology	MCRO 251	BIO 175 OR BIO 176 OR BIO 275	
Anatomy and Physiology	BIOL 252 & 252L OR EXSS 256 OR 276	BIO 163 OR BIO 165 AND BIO 166 OR BIO 168 AND BIO 169	Two semesters of anatomy and physiology are typically "Anatomy 1 and 2"
Psychology	PSYC 101	PSYC 150	Social psychology will not transfer
Sociology	SOCI 101 OR SOCI 111	SOCI 210	
Communications/Public Speaking	COMM 100 OR COMM 113 OR COMM 120	COMM 110 OR COMM 120 OR COMM 231	

Fulfilling the Chemistry/Biochemistry Prerequisite Requirement

To fulfill the chemistry prerequisite, students need a minimum of 8 credits in general chemistry or biochemistry. The courses must be sequential and include labs. The requirement is satisfied by UNC-Chapel Hill general chemistry courses CHEM 101, 101 Lab and CHEM 102, 102 Lab OR biochemistry courses BIOC 107 and BIOC 108.

From community colleges in North Carolina, the equivalent courses for general chemistry are CHM 151 and CHM 152. For biochemistry, CHM 130 and 130A, or CHM 132 are equivalent to UNC BIOC 107, but a counterpart to BIOC 108 is not offered outside of UNC. To complete the requirement, applicants would need to take BIOC 108 at UNC (currently this course is only offered in the spring). If CHM 151 and 152 are taken in addition to Chm 130, 130A, or 132, the one semester of biochemistry would transfer as an elective.

Courses that transfer to UNC Chapel Hill as electives, but do not satisfy the chemistry prerequisite include: CHEM 115, 115A Concepts in Chemistry, CHEM 131, 131A Intro to Chemistry, CHEM 135 Survey of Chemistry 1, CHEM 136 Survey of Chemistry 2, and BIO 180 Biological Chemistry at North Carolina.

*Note: Dental Hygiene prerequisite courses may be pending at the time of application but **must be completed** prior to enrollment in August. Applicants who have completed all/most prerequisite coursework may be viewed more favorably by the admissions committee.*
